Recommendation Letter

14 January 2022

Dear Committee,

It's with very great pleasure that I write this recommendation letter for Nugraha Adhitama Haryono to support her application for Turkiye Burslari Scholarship. I have known Nugraha for two years and am honored to recommend him as his Homeroom Teacher at State Senior High School 6 of Jakarta. During that time, I watched Nugraha grow into an extraordinary student who excels in both academic and extracurricular activities. I can attest that Nugraha would not back down from a challenge. He would compete in competitions, mostly physics, and bring home satisfying results.

Nugraha is one of the best students I have ever met, he has shown that he is a promising student, which he shows in his problem-solving skills, analytical thinking, and good reasoning skills. He is very enthusiastic about participating in learning in class and actively answers the questions given to him. He is also able to complete the assignments given to him quickly but the quality is still high, for 5 semesters he was able to maintain his grades and even make them even better.

As a student, Nugraha also has excellent communication and leadership skills which will certainly make it easier for him in the future. He also helped make the school proud by being part of the OSN Physics team. In group work, he will make sure that his friends are working towards the targets they have set and will help his friends who are having difficulties. He is also happy to deliver more than requested.

I had the pleasure of getting to know Nugraha personally, and I'm sure many people will agree that he is someone who is diligent, hardworking, and happy to help. Nugraha is one of the best students I encountered in my career as a teacher and I highly recommend him for your university. His combination of academic, leadership, work ethic, and personality makes him ideal for your university community. Once you meet Nugraha, you will see why I am so enthusiastic about him, both as a student and a young man.

Sincerely,

Rahayu Yuliningsih, S.Pd.
